

CASE STUDY

**Outstanding finish
showcased the
versatility of liquid
roofing system**

APPROVED CONTRACTOR:

Capital Roofing Co Ltd

CONSULTANT:

Hartnell Taylor Cook

The purpose:

This iconic 1930's London Office Building enjoys enviable panoramic views over the Thames.

However, the roof was in need of urgent repair. Property Consultants, Hartnell Taylor Cook, turned to Langley for help with the building's challenging roof refurbishment project.

The roof space contained many onsite challenges

Our solution:

The roof space contained a complicated maze of obstructions including plant equipment, ventilation and cabling. Langley's Paracoat and red Paraquartz Liquid Roofing Systems were chosen to overlay the existing asphalt roof, a perfect solution to overcome the many onsite challenges.

Langley approved installers, Capital Roofing Co Ltd, was chosen to carry out the works on the 600m² roof space.

The result:

The roof refurbishment at Brettenham House resulted in an outstanding, showcasing the versatility of Liquid roofing.

The complex roof refurbishment was overcome by using Liquid roofing system which achieved a superb finish to last for many years to come.
