## On Completion

Gold CSCS card

## Course Requirements

“The Level 3 NVQ Diploma was packed full of useful information. New skills and techniques that I have gained have been implemented within the business’ day to day. It took just 5 months to complete and did not encroach heavily on time as one module was completed each month. Langley delivered the course at our offices and assessment entailed much of what I do regularly to which I achieved a formal qualification at the end. Would highly recommend.”

- Contracts Manager; Ashe Construction

# Construction Training

## Benefits for Operatives

## Benefits for Business

### Operative to Director

We have developed in excess of 40 construction training courses. Some courses address initial entry level qualifications, such as installing a particular roofing discipline. With further opportunity and access to developing managerial skills in certain areas of the business, tailoring qualifications such as Head Office operations or Site Management. The extensive offering allows for individuals to set off on a progressive career path in construction.
